St Mary's Stadium

Value

£130,000

**Services & Solutions
Provided**

Structured & Fibre Optic
Cabling Solution
Access Control, Ticketing
& BMS Systems

Southampton FC 'St Mary's'

Securing the contract to design and install the entire cabling infrastructure for Southampton Football Club's new £32 million all seated stadium demonstrated our extensive communications infrastructure design knowledge, competitiveness and genuine UK coverage.

The completed installation comprises 1200 'Category 6' RJ45 outlets complete with a high speed fibre optic and voice backbone infrastructure for the clubs high tech data, voice and video applications.

The cabling infrastructure, delivered by our in-house project management and engineering resource supports all data, voice, video, EPOS, door access, ticketing and BMS systems throughout this new state of the art building.
