Wirral MBC 'Schools For The Future'

#### Client

Wirral MBC

#### Project

Wirral Borough Council  
Schools For The Future

#### Value

£800,000

#### Services & Solutions Provided

Structured & Fibre Optic  
Cabling  
Wireless LAN  
LAN Switching  
IP Telephony

#### Wirral MBC 'Schools For The Future'

Wirral Borough Council's £50 million PPP project for 9 new and refurbished secondary schools has reinforced the fact that, far from compromising the value of human contact, technology can enhance the way we all learn and communicate.

Boston Networks remit was to design, supply and maintain a cutting-edge network which would enhance communications both internally and between the two new-builds and seven re-developed schools participating in the project.

A major feature of Boston's challenge was the speedy and smooth installation of internet protocol (IP) telephony and wireless LAN in conjunction with some 5,000 structured cabling outlets to allow seamless connection of voice and data throughout each building.
