Balfour Kilpatrick's UK Headquarters

Client

Balfour Kilpatrick Ltd

Project

UK Headquarters

Value

£275,000

Services & Solutions Provided

Cisco Unified
Communications
Cisco Wireless LAN
Cat 6 Structured Cabling
IP Surveillance

Balfour Kilpatrick relocated its Head Office, Projects Unit and Scotland West Operations to Hillington Park, Scotland's largest business park and contracted Boston Networks to supply, install & commission a Unified Communications system throughout the energy efficient Lumina & Lonsdale buildings bringing together voice, video, data, and mobile applications.

The intelligent converged network creates a collaborative, adaptive workspace and increases business productivity allowing staff to reach the right resource right away.

Boston Networks installed a Brand Rex Category 6 cabling infrastructure to support these building critical services which include an IP Surveillance solution installed throughout both buildings by Boston's 'IP Connected Buildings' team.

The IP Surveillance system operating internally and externally is monitored continually providing total security 24/7.
