Services

Hotel Missoni, Edinburgh

Hotel Missoni is the newest member of the Rezidor family opening its doors on the famous Royal Mile in Edinburgh. Rezidor's recently signed worldwide license agreement with the iconic global fashion brand of the same name will offer a distinctively different kind of hotel in a prime location within the historic city.

Boston Networks were contracted to design, supply, install and commission a copper and fibre optic network cabling system and a Unified Communications solution bringing voice, data, video and mobile (Wi-Fi) applications together under one roof.

The installed system also supports IP video surveillance and IPTV within the rooms and public areas of the five star hotel.

Edinburgh is the first Missoni Hotel in the world with others planned in Kuwait & Oman.
