Hoft & Wessel

### Project

Wireless Ticket Machines

### Value

£450,000

### Services & Solutions Provided

Design & Consultancy  
Services  
Wireless and RF Planning  
Wireless and Cabling  
Design & Build  
Maintenance & Support  
Services

Höft & Wessel AG, Hanover, established by the entrepreneurs of the same name in 1978, is a German IT and Engineering Group with focus on retail & logistics, public transport and parking systems.

Collaborating with Höft & Wessel, Boston Networks carried out detailed Cabling and RF planning throughout a number of transport depots with the aim of designing & installing a wireless LAN solution offering seamless network coverage to devices including on bus wireless ticketing machines.

Boston Networks provided qualified design and engineering resource over a sustained period to survey, analyze, design, install & commission a solution in over 100 depots throughout Scotland, the UK and Europe.

Boston Networks also provide ongoing Maintenance & Support Services for many of these depots, including pro-active and preventative Maintenance Services ensuring 24/7 business continuity.
